CPD Overview

Available CPD Material (1)

Multiple formats

Pumping Stations

This CPD will provide delegates with information on when a pumping station is needed and the points to be considered in the system selection and design. By the end of the CPD you should have a greater understanding of:

- The operation and function of a pumping station
- Design considerations
- Installation process
- Maintenance and after-care
- Statutory issues and legislation

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**Knowledge level: General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Services

Drainage > Drainage and sewage pumps

Drainage > Sewage and effluent treatment

Engineering

Disposal systems > Below ground drainage systems

General engineering services > Pumps
