Safe Access All Areas: An Essential Guide to Safe, Practical and Aesthetic Roof, Ceiling, Wall and Floor Access Solutions

This CPD aims to cover a full range of access products, providing a clear overview of managing access, fire, safety and security requirements in your building. Topics covered include purpose and reason for access, identifying and overcoming access changes, design considerations, weight loadings and configurations, and relevant regulations and standards. By the end of the CPD you should have a greater understanding of:

- Fire ratings and certification
- Smoke ventilation including access
- Safe operation
- Specification of roof and floor access areas
- Specification of wall and ceiling access areas

This CPD can be delivered to you live and remotely

Material type: Online Learning, Seminar

RIBA Core Curriculum: **Design, construction and technology**
Health, safety and wellbeing

Knowledge level: General Awareness

Multiple formats

The Evolution of the Riser Door

This seminar provides an overview of riser doors. It will help you to understand the following topics:

- What is a riser door
- The reason for changes and the birth of the modern riser door
- The modern riser in detail
- Certification and compliancy issues
- Special features of the modern riser

This CPD can be delivered to you live and remotely.
