CPD Overview

We're Studmarc.

We design, manufacture and install architectural studs of all kinds.

We help our customers achieve a perfect finish to their project, no matter how big or small. How do we do it? With high quality studs, of course, and an enthusiastic team that gets fully involved.

Why working with us makes all the difference:

Exceptional quality: Our precision-engineered studs are designed and manufactured in the UK and Europe with the highest-quality materials available. Expect durability, reliability, and a flawless finish that withstands the test of time.

Tailored solutions: We can design and manufacture whatever you need. We are flexible, nimble and adaptable to your requirements. Whether it's a large-scale commercial endeavour or a bespoke residential project, we meet your distinct needs.

Expert guidance: Backed by extensive experience and depth of talent, we are more than a supplier - we're your reliable ally throughout your project journey. From ideation to installation, count on our team for a smooth experience.

We offer the widest range of studs in the UK, from tactile studs, strips and paving tiles to skateboarding deterrents and road studs, in many different sizes, materials and fitment options, engraved, printed or laser-etched - the possibilities are endless.

Ready to complete your projects with high-quality architectural studs?

Reach out today to discuss your requirements, and discover how we can help turn your vision into reality, stud by stud.

Architectural Studs and Curbing Anti-Social Behaviour

This seminar seeks to inform on the uses of architectural studs as a means to preventing anti-social behaviour in communal and shared spaces. It will go in-depth on architectural studs as a tool in dissuading these behaviours and actions while examining the societal attitudes towards them and their ethical uses.

By the end of the CPD you should have a greater understanding of:

- How Architectural studs are used to prevent anti-social behaviour.
- What to look for when selecting an architectural stud.
- What best practice is when installing them.
- What the societal attitudes towards architectural studs are.
- What to consider when thinking about utilising them in an installation.
