CPD Overview

Available CPD Material (1)

**Exceptional Performance Systems in Below Ground Waterproofing**

This seminar covers the design and specification of below ground waterproofing systems in accordance with British Standard BS 8102: 2009. It will help you to understand the following topics:

- Common waterproofing problems and solutions for specifying below ground waterproofing systems
- The importance of site evaluation and risk assessment
- Structural design considerations
- Waterproofing system selection and how to specify the most suitable type of waterproofing for your projects
- The importance of warranties and costs associated with waterproofing systems

Material type:

Seminar

RIBA Core Curriculum:

Design, construction and technology
Legal, regulatory and statutory compliance

Knowledge level:

General Awareness

Classifications

Subject/Product Areas (CI/SfB)

Substructure

Ground works > Ground water control; trench sheeting etc.
Floor beds, ground floors, basements > Proofing services

External works

Landscaping, hard surfaces, pools > Fountains, ponds, lakes

General products

Flexible proofing/separating sheet membranes > Foils, building papers, sheet dp membranes
Paints, varnishes, protective treatments etc. > Special paints, coatings, films
Adhesives, sealants, gaskets > Joint sealants and fillers

RIBA Core Curriculum areas

Design, construction and technology

Knowledge level: *General Awareness*

Legal, regulatory and statutory compliance
